### Safety reminders | Construction

- Use fall protection when working 6 feet or more above a lower level.
- Wear hard hats, eye protection and safety footwear on site.
- Inspect ladders and scaffolds before every use.
- Never enter an unprotected trench or excavation.
- Stay clear of overhead power lines and energized equipment.

## Questions? Call Key HR at 800.922.4133

This notice does not replace the official workers' compensation poster required by your state. Post both where employees can easily see them.
