Safety reminders | Light Industrial

- Keep machine guards in place and never bypass safety devices.
- Follow lockout and tagout procedures before servicing equipment.
- Wear eye, hearing and hand protection where required.
- Keep work areas clean and free of slip and trip hazards.
- Report unsafe conditions to your supervisor immediately.

Questions? Call Key HR at 800.922.4133

This notice does not replace the official workers' compensation poster required by your state. Post both where employees can easily see them.
